Subject: Consultation Paper - Living in Harmony

Congratulations on such a thoroughly presented Paper

I would add

...(p.8) Solar Power being mandated

...countries with ocean incursion.

List ways 'UC members could adopt lifestyles ...minimum impact.'

I believe Synod is not publicly and within churches, vocal enough in advocacy that the government implement policies... to address climate change.

I think the paper (or future communication with churches) needs more HOW TO...

I am not critical - just hopeful - all I can do at 81 and in Lockdown!.

Thank you. Jan S
